Now as to Tascosa's reputation for a shooting ground. We never had but one shooting scrape in Tascosa, and each and every shooting scrape that ever has occurred in this county was by transient parties traveling through the country.

And now, in conclusion, I will say, our people are made up of some of tolorado's and Texas' best citizens. We have two stores here, carrying large stocks of goods, that will compare favorably with any in Trinidad; a blacksmith shop, drug store, two good physicians, a minister of the gospel, a good church, two good notels, one billiard room, and in fact all the appurtenances and comforts of civilization to be found in any frontier town. We are attached to Wheeler county for judicial purposes, and no county in Texas can boast of a stricter enforcement of the law than young Oldham county. Furthermore, the citizens consider Capt. The mineral constituents of these waters closely resemble those of the Hot Springs of Arkansas, and those famous Thermal Springs of Europe. The Prefers in the valley of the Rhine, and the Plombieres, the popular resort of France, situated in the valley of the Vosges Mountains, and the Leux in the pictures que valley at the foot of the pass over the Gemmi Mountains. The proportion of deaths from consumation here being smaller than in any state or territory in the Union. The mean annual temperature at these Hot Springs is 50 deg. Fahr., being at an elevation of nearly 6,4 0 feet. Summers are cool; nights from 55 to 60 deg., and the winters are remarkably mild and dry, the temperature seldem falling below the freezing point. The rainy season is in July and August. These Springs are located in about 35 degrees of north latitude, which makes the climate mild and temperature unmarked by extremes either of heat or cold. The bracing air, its mountains, the gargeous picturesqueness of its canons and valleys combine to make it one of the most pleasant resorts for tourists. Only 35 hours rike from St. Louis. After leaving facture, colorade, until reaching the Springs the traveler sees spread before a vast panorama of mountain, valler, and rocky canons, stretching hundreds of miles. No better place can be found for the stock-grower to live and raise his family than at the Springs.

With all of the above advantages the duffest of comprehension cannot fail to see the advantage of an early investment in properly in and about the Springs, as there are but a few hundred lots for sale, and they will soon largely enhance in value from the prices now asked.
